TIPS

- 1 Trouble logging in? Our webshop is highly secured, therefore both username and password are case-sensitive.
- 2 The shown prices are the prices per plant. Select a quantity for discount. You can also find the discount table bottom right, below every plant.
- 3 Turn off "Only with batch picture" if you want to see all the batches.
- 4 Only a part of the Latin name is enough. For example: are you looking for a Buxus sempervirens? Then type: bux sem and Plant Market comes up with a suggestion. Press "search" if you want to see all results.
- 5 When you are looking for a specific size, a part of the size is enough. For example: you are looking for a Prunus 100-125? Then type 125. When you are not looking for a specific size, you can leave this empty and see all the sizes we offer.
- 6 Behind every batch, you will see a clock. These clocks inform you about the order deadline within the selected batch, for a specific loading date.
- 7 Do you have any questions left? For immediate assistance use our live chat. You will be in direct contact with our salesteam.
